PROJECTS

Social-Media app

[11/2022 – 12/2022]

Making this social media app using the MERN - technologies namely MongoDB, Express.js, React, Node.js. Used mongoose and CORS for resource sharing, body-parser, and for frontend used react app to make my Single page application. Used various third-party npm to get it working and have a nice and better UI.

Dynamic Web Page Using HTML | CSS

[20/10/2022 – 28/10/2022]

In this website used HTML for making a skeleton of the page. Here you have 6-7 pages by which you can navigate to each of them. Through CSS align each and every element to it's place and by using Media queries I made the page works responsive for all laptop, tablet, mobile screens.
